

## Temporary Interprofessional Clinic

### [CHALLENGE]

LSU Health Sciences Center in New Orleans required an Interprofessional Clinic for the School of Dentistry and Nursing to provide primary and urgent care in a teaching environment to support the local community.

### [SOLUTION]

Modular Genius provided a 3,600 sqft temporary clinic. Off-site construction included installation of features inside the modular building such as laminate counter tops, exam room sinks, counters, cabinets, plumbing, electric for dental chairs, and interior finishes such as floor covering and drop ceilings.
