

Training Center - Baltimore, Maryland

[CHALLENGE]

A local Baltimore electric company needed a new training and education center. It needed to be resurrected as quickly as possible in order to train new employees as soon as possible.

[SOLUTION]

Modular Genius built a 24' x 36' (864 square feet) modular building for this Baltimore customer in 60 days. This building included the 'classroom', a tile finished restroom, and a finished ADA wood ramp.
