

Stadium Skybox - College Park, MD

[CHALLENGE]

A University in Maryland was in need of a solution to help promote their new addition of 64 luxury skybox suites featuring indoor and outdoor seating. These suites needed to have an upscale appearance and needed to match the new construction and meet the University's Architectural Covenant.

[SOLUTION]

When designing and engineering this sky box, Modular Genius used the exact same building interior materials and fixtures, attention to detail was required during these design phases. This sky box was utilized during many different events, with a multitude of clientele.
