

Portable Classroom - Elkton, MD

[CHALLENGE]

A small private school was in need of additional classroom space. They had a small piece of land which they could build on, and needed it completed over the summer months in order to be completed by the start of the school year.

[SOLUTION]

Modular Genius built this school, a 1,440 sq ft modular building. The portable classroom building was installed with metal aluminum steps and ramps. The exterior was an esthetic compliment to the campus. The construction of the modular building and installation was complete in 45 days from award to occupancy.
