

Adult Classroom / Training Center

[CHALLENGE]

A Technical College had to relocate their existing truck driver training offices and classrooms. The space which they were using was old and out dated. They needed to move out and be up and operational in a short period of time for seamless transition.

[SOLUTION]

Modular Genius installed a 1,920 sq ft classroom and office space for their new facility. The turnkey services provided by Modular Genius included installation of fresh water and sewer tanks, decks and canopies as well as leveling the pad for the modular buildings. The fabrication and installation was complete in 60 days from award.
